## *Kingston 28/32 Patrol*

### **Designed For Performance and Durability**

This Kingston Patrol Series is a further development of our successful Kingston 24 series. This hull design has proven itself in wide-ranging conditions, and has particularly good performance in large seas. The modified 'V' hull is easily adapted for varying sea conditions by adjusting the deadrise fore and aft to meet the operating needs of individual customers. The standard boat is fairly light, weighing in at approximately 8,500 lbs. It is easily driven by smaller engines, and the 28-footer is comfortable with a power range of 260 to 600 HP. The lighter hull also has greater reserve buoyancy, allowing for a larger payload or tankage for increased range. This hull has successfully been adapted for commercial use and can be ordered with forward, rear, or side-mounted wheelhouse.

Standard features such as light and radar masts, ingress/egress points, helm position, deck heights, etc. are all adjusted to meet the individual requirements of the operator. We have found that our best asset to our designs is the input of the people who operate them.

## Specifications

LOA	28'/32'
Beam	10'6"/12'5"
Vessel Draft	2'/2'4"
Weight	8,500 lbs./12,500 lbs.
Maximum Capacity	6,000 lb./8,000 lb.
Power Range	260 - 1000 hp
Fuel cap. (std)	80 gal
Power Options	Jet, I/O, O/B, I/B

## Standard Features

- MCM 10-year hull warranty
- Sealed self-bailing cockpit
- Sealed, hinged, insulated engine box
- Removable soft patch in main cockpit for tank removal
- Hull grounding strake for beaching
- Swim platform/outdrive guard
- Positive flotation
- Tread plate or non-skid decking
- Extra wide side decks with full-length safety rails
- Fully adjustable seats
- Cabin dome lights with red/white switching
- Navigation lights
- Cabin safety handrails
- Windshield wipers
- DC breaker panel
- Hydraulic steering with stainless steel wheel
- Fore and aft bilge pumps with auto-manual switching
- Three way battery switch
- Battery boxes with aluminum retaining brackets
- Certified aluminum fuel tanks
- Safety glass windows
- 5 x 10" welded aluminum cleats
- Lifting eyes
- Aluminum rubrail
- Aft weathertight hinged lockable door

## Optional Features

- Hull deadrise
- Canvas cockpit enclosure
- Open forward cockpit
- Rubber rubrail
- Central engine box
- Flush rear deck
- Raised rear deck
- Full watertight doors
- Additional fuel tankage
- Galley and marine head
- Instrumentation and electronics
- Radar & light mast arrangement
- Hull or transom gates
- Diving ladders
- Insulating options
- Heating options
- Paint scheme
- Hull scantlings
