To Whom It May Concern,

I highly recommend Metal Craft Marine for your boat building needs. They took care of us from start to finish. The hardest thing I found with other boat builders was that they would not do any custom work or move something simple as a cleat. This is not the case with Metal Craft. If you have an idea and want it done, Bob and his team will work with you to achieve it. All his members are responsive to your needs in building a boat to fit your mission. Every time we visited we saw a different platform, which allowed us to see features we wanted to add. We are extremely satisfied with our new 12M Interceptor. They also worked with our vendor for our hazmat equipment for installation and delivery.

If you have any further questions regarding building a boat or our experience please don't hesitate to call or email. My contact information is 310 732-7722 or lbrown@portla.org.

Respectfully,

Sergeant Logan Braun #96077
